(c) The candidate is allowed to make Suitable numeric assumptions wherever required for solving problems

Q1. Had it not been for disciplinary committees and anti-ragging enforcement, we would have had lot of ragging on university and college campuses. Do you think justice can be managed without strict enforcement? (Marks 6) CO4

Q2. Can you give some examples of sustainable, mutually enriching production systems? (Marks 6) CO2

Q3. Are justice and verdict the same thing or different things? (Marks 5) CO4

Q4. What exactly is this enrichment, protection and right utilization of nature? Please give some examples.(Marks 6) CO 3

Q5. Dr Imoto did some amazing experiments with water. They showed that there is an impact of feelings on water and water has memory. What is your comment on it? (Marks 6) CO 3

Q6. In nature the first three orders are already having definite conduct. Why does human order have to work for definite conduct? I mean why is that also not automatic or natural? (Marks 6) CO 4
